

REMARKS

The present amendment is submitted in order to place several of the independent claims in better form by clarifying the nature of the movement of the computer-controllable object. Support for the amendment will be found at numerous points in the specification, for example in paragraph 0008 and in the detailed descriptions of object movements in which individual parts are movable with respect to the remaining parts.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.
Attorneys for Applicant
